Pampa wines. **Limitless wines.**

The word **Pampa** comes from Quechua, an indigenous language spoken in the Andes. It refers to the vast and boundless plains found in South America.

In the Pampas, the immensity becomes ambiguous and the skyline backs away as you step forward. **In the Pampas,** limits and boundaries are exotic concepts, unimaginable for those who inhabit these lands. **In the Pampas,** the dimension of your horizon is delimited by the extent of your sight, and your aspirations are defined by the strength of your willpower and imagination. These are the lands we come from.

Pampa Wines are a reflection of our ideals and our limitless aspirations. Like the Pampean eagle overflying the infinite grasslands, we will keep going further and further.
